

# 3D-NordOst 2022

01 – 02 DECEMBER 2022, BERLIN-ADLERSHOF

24<sup>TH</sup> APPLICATION-ORIENTED WORKSHOP  
ON MEASURING, MODELING, PROCESSING  
AND ANALYSIS OF 3D-DATA

Gesellschaft zur Förderung angewandter Informatik e. V.

## DEADLINES

- |                          |  |
|--------------------------|--|
| <b>22 August 2022</b>    | Closing date for abstracts   |
| <b>14 September 2022</b> | Confirmation of abstracts (after review)                                       |
| <b>14 September 2022</b> | Closing date for poster session proposals                                      |
| <b>28 September 2022</b> | Confirmation of poster proposals   |
| <b>24 October 2022</b>   | Closing date for submitting conference manuscripts / print versions of posters |
| <b>01 December 2022</b>  | Workshop PART 1  |
| <b>02 December 2022</b>  | Workshop PART 2  |

## CONTACT

**GFaI Gesellschaft zur Förderung  
angewandter Informatik e. V.**

Volmerstrasse 3  
12489 Berlin  
Germany

[www.gfai.de](http://www.gfai.de)

### Program Committee:

Dr. Stephan Rothstock (GFaI)  
Benjamin Hohnhäuser (GFaI)  
Daniel Krueger (GFaI)  
Prof. Holger Schlingloff (HU Berlin)

Phone: +49 30 814563-464  
eMail: [rothstock@gfai.de](mailto:rothstock@gfai.de)

### Workshop Organization:

Michael Pochanke

Phone: +49 30 814563-321  
eMail: [3d-nordost@gfai.de](mailto:3d-nordost@gfai.de)

## CALL FOR PAPERS

# 3D-NordOst 2022

02 – 02 DECEMBER 2022, BERLIN-ADLERSHOF

[www.3d-nordost.de](http://www.3d-nordost.de)

24<sup>TH</sup> APPLICATION-ORIENTED WORKSHOP  
ON MEASURING, MODELING, PROCESSING  
AND ANALYSIS OF 3D-DATA

# 3D-NordOst 2022

01 – 02 DECEMBER 2022, BERLIN-ADLERSHOF

24<sup>TH</sup> APPLICATION-ORIENTED WORKSHOP  
ON MEASURING, MODELING, PROCESSING  
AND ANALYSIS OF 3D-DATA

## OBJECTIVE

The workshop series 3D-NordOst is targeting the transfer of topical know-how in 3D-data and image processing to industrial sectors as well as to cultural and medical applications and practice. The workshop provides a platform for developers and users to discuss the broad spectrum of 3D related topics.

Interested authors are invited to submit algorithm- and application-oriented papers. Contributions focusing on sensor calibration, algorithmic optimization, visualization and presentation of 3D content are also welcome.

**The workshop 3D-NordOst 2022 will be held as a hybrid event.**

## ABSTRACTS / SUBMISSIONS

### Abstracts

By **22 September 2022**, the authors are asked to submit extended abstracts (max. two pages) via eMail (3d-nordost@gfai.de) to the workshop organization. The abstracts are reviewed.

After confirmation (**until 14 September 2022**) camera-ready contributions (in German or English language, max. 10 pages A5 including colored images) will be expected until **24 October 2022**.

### Poster Session

A poster session is organized, proposals should be submitted to the workshop organization (Deadline: **14 September 2022**). Confirmation: until **28 September 2022**; submitting print version: until **24 October 2022** (poster image and a maximum of three supplementary text pages).

### Publication

Accepted papers/posters will be published in the ISBN referenced 3D-NordOst proceedings.

### Exhibition

A small exhibition is organized. Please submit proposals for presentations to the workshop organization.

## ORGANIZER

GFal was founded in 1990 and is based in Berlin-Adlershof, the significant scientific, economic and media location in the capital region Berlin-Brandenburg. Adlershof evolved into one of Europe's largest technology parks.

GFal work is based on the fields of contract R&D as well as scientific projects. Over 100 companies, universities and institutions and about 100 people are member of GFal.

Over 100 employees are working at GFal. The institute has many successful collaborations with SMEs, research organizations, authorities and big companies.

GFal fields of expertise include Image Processing for Industrial Applications and Document Analysis, 3D Data Processing, Graph Based Engineering Systems, Computer Aided Facility Management, Text Mining Software, Signal Processing / Acoustic Camera as well as Structural Dynamics / Pattern Recognition.
